★ WEBSITE:

We've given the main page of our site a little face lift! We believe it is better organized and will make it easier for you to navigate. We hope you enjoy the new look!

There have been a few corrections made on our Pottery page as to the size in liquid ounces of a few of the Americana crocks. We apologize for the mistakes and any inconvenience!

★ COMPANY NEWS:

~ We will soon be changing our electronic check service to an automatic withdrawal system. This system should be much more reliable and have a much higher approval rate, which means your orders will go out faster! More info will be posted on our site soon!

TIP OF THE MONTH:

Layered Votives with EZ Soy™! Yes, even though this wax is a container blend, it can successfully be used to make beautiful votives too! All you need to do is coat the inside of your votive molds with our silicon spray mold release before pouring, pour your first layer (approx 100 temp) and allow to solidify before pouring the next layer, etc. Once your final layer has been poured and hardened, you may need to pop them in the fridge for about 20 minutes to help release easier. Try layering our Dreamsicle and Lime for some cute St.Patty's Day Votives!
