TIP OF THE MONTH:

No more slipping wicks!

For double wicked apothecary jars, I use the Wick Stickums to hold them in place at the bottom. I use the Wick Centering Tools on the top of the jar, and to keep the wicks straight and tight, I twist the 2 wicks around each other at the top. This holds them in place (even works with coreless wicks) and keeps them nice and taught so when the wax shrinks your wicks won't move.
