### TIP OF THE MONTH:

~ TRAVEL SOAPS

My TIP is for a fun new product using your clear push-up tubes and Melt & Pour soap - travel soaps! Different colors can be layered for eye-catching effect, or you can use soap embeds. I have also made this in layers of Honey and Goatsmilk soap, as a travel facial soap - it can be applied directly to your wet face - no mess, no waste! Another option is to fill the tube with chunks, then overpour. The clear sides show the finished soap to wonderful advantage. Soap does not leak out of this container, making it a great product for travel, camping, etc. No messy soap container to deal with, just shake off the excess water and screw on the top! I do recommend that you swab the inside of the tube with oil before pouring to make it easier to push up the soap. And, as always, spray embeds or layers before pouring a new color. These are FUN, with LOTS OF VISUAL APPEAL!
