BC Book Club!

Book of the Month **20% Off!**
This month's book is:

Melt & Pour Soapmaking
By Marie Browning

This is a great way to start your own collection of candlemaking, soapmaking, aromatherapy and craft books! Books are informative and inspiring, you can never have too many!

TIP OF THE MONTH:

Make Your Own Dye Buds!

I have figured out a way to ease my pain of trying to get the color from dye blocks uniform with out using a grater or shaving the block. I use the 20 cavity mold ([mE603 - Heart Small 20 cav.](#)) I take 1 dye block, melt it with 2 oz of wax.... and pour into the mold. Each heart will color 1 lb of wax to a medium shade. If you want to use a different mold here are the calculations... since 1 block will color up to 20 lbs of wax.... you need a mold with 20 cavities. For the heart mold what I did is filled all cavities with water, then dumped it into a bowl and measured the fluid ounces. Then in a glass measuring cup I melted the dye block and added wax and melted until I had the amount I needed. Let cool a bit and poured into the mold, bagged in plastic zip locks and labeled.
