COMPANY NEWS:

~Postal News –
As of May 14th new rates will be in effect from the United States Postal Service. You can read more about it [here](#). We are still working on the situation with shipping fragrance oils thru priority mail, and have been in touch with authorities at the USPS office in Minneapolis numerous times. They are supposed to be issuing us a written letter to clarify exactly what can and cannot be shipped by which methods, so we can post this on our site. In the meanwhile we have been told by them that we cannot ship fragrance oils out of the country through the mail, so we are only shipping international orders via UPS. For orders within the U.S. we are able to ship certain fragrances depending on the flash point and certain ingredients on the MSDS sheets. If a fragrance is not shippable via Priority Mail it will be marked on our site ([see example](#)). We are doing everything we can to get the postal regulations clarified so that we can be in full compliance while offering the best shipping options. We are also working on offering flat rate priority, and will be posting the details of this new program soon!

MIX OF THE MONTH:

This month's Scent blend:

Sandalwood Ylang

1/2 [Sandalwood](#)

1/2 [Ylang Ylang](#)

TIP OF THE MONTH:

Equally Layered Votives -
Place a wooden skewer in the votive mold and mark where the top of the mold is. Measure that length and divide it by how ever many layers you want. When you pour, stick the skewer in the mold and pour up to the first mark, then just pull the skewer out. When you pour your next layer, just set your skewer gently on the next layer and pour up to the same mark, and repeat. This works even better with wick pins!
