What features would you like to see in our shopping cart? We are currently looking into new shopping cart options, and would love to have your opinions! Write in and tell us what improvements you would make in our system, and if there are example sites with carts you like, send us a link!

#### **TIP OF THE MONTH:**

##### **- Fire Starter Cones!**

Here is an easy project you can make for pretty gifts or to sell! Just take small pine cones such as our Omorica Cones, and wrap a strand of wicking around the cone, weaving in between the layers of the cone. Be sure to leave about 2 inches of wick sticking out of the top of the cone. Hold cone by the wick and dip into colored, scented wax. You can use pillar wax for this. Allow cone to dry for a few moments, then dip again until you have a nice solid covering of wax. If you wish, you can even add glitter to the wax or sprinkle glitter on the cones while they are still wet for a more dazzling holiday look! To use, just place the cones under a log in the fireplace, and light the wick. They will get your fireplace roaring in no time! These look great packaged in our tin tie window bags, or our clear votive tubes, or even our white window top votive tray boxes!
