Use code: **D-1208**

TIP OF THE MONTH:

I was having problems with some of my fragrance oils not incorporating into the wax properly and discovered it was because the oils were too "cool". I don't like heating the bottles in water for fear that I just might get some of the water in my wax. I got my old baby bottle warmer and used it to heat the oil. Guess what?? No more blending problems. It heats the oil perfectly and has solved my problem.

Michelle from Aromatic Creations
You've won \$25 in BC Bucks!
